<p>Hybrid Tomatoes: Seed is produced by a hand pollinated cross between two distinct parent lines.</p> <p>Heirloom Tomatoes: An heirloom is generally considered to be a variety that has been passed down through several family generations because of it's valued characteristics. Heirloom tomatoes were developed before 1950.</p> <p>Open Pollinated Tomatoes: Seeds from open-pollinated varieties produce plants and fruits that are identical to their parent.</p>					
Many of the following tomato varieties are heirloom tomatoes and they are noted as such in the 'Heirloom' column
