<p><b>Hybrid Tomatoes:</b> Seed is produced by a hand pollinated cross between two distinct parent lines.</p> <p><b>Heirloom Tomatoes:</b> An heirloom is generally considered to be a variety that has been passed down through several family generations because of it's valued characteristics. Heirloom tomatoes were developed before 1950.</p> <p><b>Open Pollinated Tomatoes:</b> Seeds from open-pollinated varieties produce plants and fruits that are identical to their parent.</p>					
<b>Many of the following tomato varieties are heirloom tomatoes and they are noted as such in the 'Heirloom' column</b>
